MISCELLANEA

The collection at the moment comprises **112 titles** (divided in two areas: Medieval Latin Area and Italian and Romance Area) for a total of **2,690 essays** (and 200 in free access).

All the miscellany volumes essays and the Journal articles are searchable at the full-text level starting from a bibliographical search.

The complete list of titles is available at www.mirabileweb.it.

Introductions, indexes (names, persons, places, manuscripts, topics) and abstracts are available for free.

LEXICONS

free access

For many years the Lexicographical Section has promoted research on Medieval Latin Lexicons through the publication of critical editions and commentaries. In this area of scholarship, SISMEL has come to recognize the importance and possibilities inherent in the creation of the Lessici mediolatini, LeMeL database,

which allows consultation and research on a corpus of texts using the resources offered by new technologies. The lexicons now available in Mirabile, in PDF format, permitting basic word searching, represent the first step in a larger project.

DIGITAL LIBRARY

free access

The Mirabile Digital Library (MDL) is a new tool which enhance research at the text level on Latin Medieval Authors. It offers in open access the Latin Medieval Texts published by SISMEL · Edizioni del Galuzzo in a new form that allows users to accomplish tasks beyond the simple browsing: the text and related information contained in the edition are remodeled

into a system of interconnected and browsable data. All metadata link directly to Mirabile (Bibliography, Authors, Works, Manuscripts). The MDL, born in cooperation with the repository CORPUS CORPORAUM of the University of Zurich, also displays the text-search results deriving from this repository.
